

WASHINGTON ELECTRIC UTILITIES

Washington, North Carolina

Load Management Credits

| | |
|---------------------------------------|---|
| AC Credits: AC0 | <u>Air Conditioning Load Management - Partial Control</u> - When service includes central air conditioning or heat pump(s) that provide all space cooling and each unit is controlled under Washington Electric Utilities's (WEU's) load management program, load management credits will be available each month during the months of <u>June - September</u> . The credit will be <u>\$3.50 per central air conditioner</u> . The credit applies if customer has non-controlled electric water heater(s). |
| HW Credit: HW0 | <u>Water Heater Load Management</u> - When service includes electric hot water heater(s), each of which is controlled under WEU's load management program, a credit of <u>\$2.50 per water heater</u> will be applied to the customer's bill. |
| Partial AC/HW Credit: APC HWA | <u>Air Conditioning Load Management - Partial Control</u> - When service includes central air conditioning or heat pump(s) that provide all space cooling and each unit is controlled under WEU's load management program, a credit of <u>\$0.0098 per kWh</u> will be applied for all energy use over 800 kWh during the months of <u>June - September</u> . Includes controlling electric water heater. |
| Full AC/HW Credit: AFC HWA | <u>Air Conditioning Load Management - Full Control</u> - For total interruption of electric cooling during load management period, the credit for use during the months of <u>June - September</u> will be <u>\$0.0165 per kWh</u> for all energy use over 800 kWh. Includes controlling electric water heater. |
| Heat Pump: HS0 / HSF HWH / HAH | <u>Electric Heat (Heat Pump) - Partial Control</u> - When electric service space heating is provided by heat pump(s) and resistive heat in the units(s) is controlled under WEU's load management program, a credit of <u>\$0.00847 per kWh</u> will be applied for all energy use over 800 kWh during the months of <u>October - May</u> . Includes controlling electric water heater. . |
| Electric Heat: BB/ BB HWH / HAH | <u>Electric Heat – Full Resistive Heat</u> - When electric all space heating is provided by electric furnace(s) or baseboard heater(s) units(s) is controlled under WEU's load management program, a credit of <u>\$0.0157 per kWh</u> will be applied for all energy use over 800 kWh during the months of <u>October - May</u> . Includes controlling electric water heater. |

** All incentives are based on the RS1 / RS3 Rate Schedule

Effective: 1 April 2003
